Dear Parents/Carers

Free School Meals

I write further to my text last month to confirm that the Government has clarified its position regarding free school supermarket vouchers for students in Years 11 and has confirmed that eligible students in this year group will also be eligible for the COVID Summer Food Fund. This will provide eligible families with a voucher to the value of £90 for the 6 week holiday to cover the summer holiday period. Until the end of term your vouchers will continue to be processed in the same way and you should receive the voucher for the summer holiday before the end of term.

I hope this good news provides you with some comfort but I urge you to contact the school, using the 'Contact Us' button on the school website, if you need any additional support. For families needing urgent help, please contact your local authority on 01226 787787 for information about the services and support available in your area.

Yours faithfully

Paul Haynes
Principal
